I would like to help out in the community

I need to get this in so that I could graduate on time and walk with my class, this is very important to me because with out an high school diploma you wouldn't really make it. And also everything shouldn't always be about the pay something should just come from your heart so I came to ask is there anything I could help do. Also I'm in my community, so the place is comfortable and also I feel

welcome here.
